

***Unfaithful Truth is the adult sex game where cheating is the rule!***

Unfaithful Truth is best enjoyed with three or four couples, six to eight players in total, but it can be played with up to five couples (10 players), or as few as two couples, although for a much shorter game.

The game uses Action Cards (in a set order) and Truth Cards (randomly shuffled), with each player drawing an Action Card and Truth card on their turn.

Those cards are provided in this file in the following pages. A blank card page is also included, for you to make your own cards.

To use, print the cards on vinyl sticky paper for your printer. Then cut out each card and paste them on the face of a regular playing card.
